

K-Love station is very important to the community. They provide positive music, good referrals for non-profit functions, and is an asset to all. It would be terrible for K-Love to be displaced by the LPFM broadcaster. Having K-Love available to our community is a very important to me and my community, if it happened to go off the air I would be greatly saddened. It is one of the few forms of media that is family oriented and safe for all ages of listeners.
